About Me

As a web and mobile app developer, I am a skilled problem-solver with a passion for creating innovative digital solutions.

I have expertise in designing and developing responsive, user-friendly websites and mobile applications using a variety of programming languages and frameworks.

Work Experience

Full Stack Developer

Centangle Interactive

February 2019 to Present

- Improved my knowledge of web development fundamentals such as HTML, CSS, and JavaScript.
- Gained experience in developing server-side code using frameworks such as Django.
- Expanded my understanding of front-end frameworks such as React, and Angular.
- Enhanced my ability to design and manage relational databases using SQLite3 and PostgreSQL.
- Gained experience in developing and consuming RESTful APIs.
- Improved my proficiency in version control systems such as Git.
- Developed an understanding of agile software development methodologies and project management.
- Enhanced my problem-solving skills and ability to troubleshoot complex technical issues.
- Gained exposure to mobile app development and cross-platform frameworks such as React Native or Ionic.

Junior Web Developer

Centangle Interactive.

November 2018 to January 2019 (1 year, 2 months)

- Assisting in the development of web applications and websites using HTML, CSS, and JavaScript.
- Collaborating with senior developers to troubleshoot and fix coding issues.
- Creating and updating website content and graphics.
- Testing website functionality and identifying bugs and issues.
- Learning and adapting to new technologies and programming languages.
- Participating in code reviews and suggesting improvements to coding practices.
- Assisting with website maintenance and updates.
- Keeping up-to-date with the latest trends and best practices in web development.
- Working collaboratively with designers, project managers, and other stakeholders to meet project goals and timelines.

Python - Django:

- Experience building APIs with Django Rest Framework
- Ability to work with models, views, and templates
- Understanding of Django's ORM and database management tools
- Ability to write clean and maintainable Python code
- Experience with building and deploying Django applications
- Strong understanding of Python concepts and syntax
- Ability to write clean and maintainable Python code
- Knowledge of Python web frameworks such as Django
- Experience with database management and ORM tools like SQLAlchemy

My Featured Work

Konnektix

Website: Angular, Django (DRF)

<https://konnektixdev.web.app>

Konnektix is an innovative survey platform that allows companies to create engaging surveys for their clients that are designed as quizzes. Our platform provides a unique and fun way for businesses to interact with their clients and gather valuable feedback that can be used to improve their products and services.

Fakoapp

Website: Html Css, Bootstrap, Layout Desgning

<https://fakoapp.com>

FakoApp is an innovative all-in-one platform that makes your life easier by offering multiple services on a single app. Our platform is designed to provide a seamless experience to our users and helps them to save time and money.

With FakoApp, you can order food and groceries online and have them delivered right to your doorstep. We partner with top restaurants and grocery stores in your area to provide you with a wide range of options to choose from. Our app is easy to use, and you can place an order in just a few taps.

Papa Rich Pizza

Mobile App: Ionic

Papa Rich Pizza is an exciting Android app designed for pizza lovers who enjoy a wide variety of pizzas. Developed on Ionic. In addition to its extensive menu, Papa Rich Pizza also supports push notifications, keeping you updated on the latest offers and deals available.

Hashtags for Instagram Pro

Mobile App: React Native

Hashtags for Instagram Pro app will help you to increase your followers of your post on social media platforms. We have good collection of Hashtag for Instagram to tag your post high.

Walthams Florist

Mobile App: Ionic

I've successfully converted the WordPress website 'Walthams Florist' into a fully functional app for iOS using the Ionic framework. The app is now available for download on the App Store

Prodigy Academia

Website: Angular

An awesome school website called 'Prodigy Academia' is developed using Angular, a powerful framework for building dynamic and interactive web applications. The website has a sleek, modern design.
