Islamabad

## Profile

Dedicated and detail-oriented Quality Assurance Engineer with a strong desire to learn and grow. Skilled in software testing methodologies, defect identification, and problem-solving. A recent graduate with a solid foundation in software testing methodologies and best practices. Skilled in executing test cases, documenting results, and identifying software defects.

## Experience

Quality Assurance Intern

FilzB SuzaSoft (07/2022 - 11/2022)

I have assisted in the development and execution of test cases, ensuring comprehensive coverage of software functionality.

I have contributed to the improvement of quality control processes, resulting in enhanced efficiency and product reliability. Conducted thorough analysis of user requirements and translated them into effective test plans, ensuring alignment with project goals and objectives.

## Personal Projects

Blood Donation Android Application

(04/2021 - 05/2022)

Final Year Project

To help community find donors and required blood.

The system is an android base application developed using java and firebase.
